# HOW MANY MORE MUST DIE?

## Make Adams Pay For Deal

• Royal Marine Bandsmen search through the rubble for the bodies of their colleagues.

**POLICE  
PROTECT  
THE IRA**  
(Page 4)

**HOW TO  
DEFEAT  
THE  
BOMBERS**  
(Page 4)

THE SOFT UNDER-BELLY of the British Army was cruelly ripped open by IRA bombers at the Royal Marine's Barracks in Deal, Kent on Friday 22nd September. Ten bandsmen were blown to pieces by a bomb cynically laid by the IRA murder gang to inflict the utmost carnage on one of the Army's softest targets.

How many more British soldiers, policemen and civilians must die before our Government has the courage to declare war on the IRA. How many more families have got to suffer the agony of losing a loved one before the British Parliament decides to give the Army the order to eradicate the IRA.

The IRA don't care who they kill. It can be young bandsmen or innocent civilians. The purpose of their killing is to make the British people weary of the death and destruction and to capitulate, urging their Government to hand Ulster over to the Republic.

We must never let this happen. We must raise the morale of our countrymen by striking a blow that shows the British people we are taking the battle to the murderers of the IRA.

Sinn Fein boss, Gerry Adams, referred to the Deal bombing as an 'excellent IRA operation'. Such support for the murder of British Servicemen is inciting the IRA to commit further murders. Under British law 'Incitement to commit murder' carries a ten year prison sentence.

Come on Thatcher, Let's strike a blow for Britain - Arrest Adams and bring him to justice!

## Failure Key To Success!

BLACKS AND Asians who failed Civil Service examinations to become Executive Officers (middle class managers) are being allowed to take the tests again, this time with extra coaching.

The Civil Service is making special efforts to help Black and Asian failures by giving them extra tuition with Civil Service experts.

The high failure rate amongst the ethnic minorities was due, according to the Civil Service, "to the short length of time the applicants had lived in Britain and lower educational attainment levels".

There is no provision to help White applicants who failed the examinations.

## Race-hate Letter

INDIANS AND Afro-Caribbeans are up in arms in St Albans, Hertfordshire, after a race-hate letter was written by the Council's Race Relations Adviser.

Hamayum Akhtar had demanded that 'only Pakistanis be given a race relations job' and had warned the chairman of a London community relations council to 'be on your guard against the Indians' after he had claimed that Indians and Afro-Caribbeans fixed council jobs for members of their own ethnic groups.

## Bobby Shorts

"FAILURE OF the Police to be more attentive and responsive to the needs of the Black and Asian community has led to the shortage of police recruits from those communities", an International Police Exhibition and Conference was told by Peter Imbert, the Metropolitan Police Commissioner.

He said the force was trying to redress the situation by aiming yet another advertising campaign at the minority groups and was looking at the possibility of lowering the 5ft 8in minimum height requirement for men which disqualified many Blacks and Asians from joining the force.

## Cultural Looting

FOLLOWING THE example of their fellow countrymen in the Caribbean, Blacks in the St Paul's area of Bristol went looting their local supermarket the very next day.

Police cars were stoned, car windscreens smashed, policemen injured as 60 officers in full riot gear tried to contain a 200-strong mob of looters.

• A British women lies in a British street maimed by a Muslim bomb.

## British Family Faces Eviction

WOLVERHAMPTON'S Labour controlled council are seeking legal advice to see if they can evict a 3 year-old girl and her family on the grounds of racial harassment.

Tiny Kelly Petty is alleged to be a ringleader in name-calling and stone-throwing against Asian neighbours the Kaul family in Hughes Road, Wolverhampton. The Kaul's claim they are subjected to constant abuse from the toddler.

If the Petty family are made homeless in the wake of allegations, Wolverhampton Council will be under no obligation to re-house them.

• Race Thug: 3 year-old Kelly

That a family can be evicted from their home because of the antics of a 3 year-old is ridiculous. No one condones anti-social behaviour but it's up to parents to control their children. There is tremendous pressure, on patriotic White families seeing their cities, towns, villages, roads and houses being taken over by coloured immigrants, to take matters into their own hands. That is not the way to remedy the situation. In towns like Wolverhampton with their racial harassment policy British families living in council accommodation, who show their feelings with regard to the coloured invasion will only end up homeless.

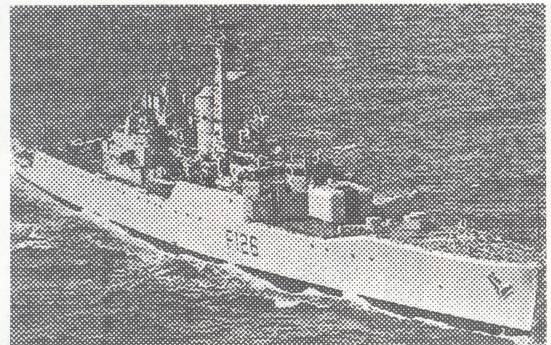

The National Front is the answer. Patriotic Britons should join the Party that puts the British people first and work to make their local council a National Front one.

## Sinking Our History

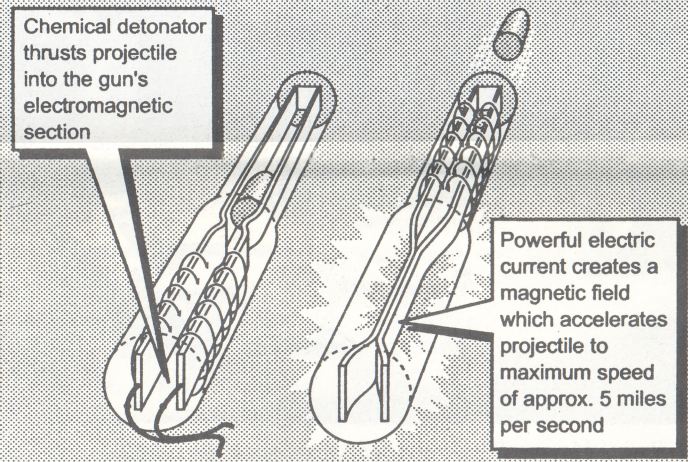

THE WARSHIP Preservation Trust is battling to save one of the Falklands War's most historic ships from being used as target practice.

HMS Plymouth, the 2,800-ton frigate on which the Argentinians signed the formal surrender of South Georgia, is to be sunk unless the conservation group can raise £200,000.

If the money cannot be raised, the ship that survived being hit four by four enemy bombs, will finally be sunk by a British one. Can the Battle for the Falklands so quickly be forgotten?

## ANOTHER AMERICAN WEAPON DISASTER

• The Railgun: Failed to topple a senior research scientist.

THIS IS the Railgun, an American invention that is meant to blast open the toughest of tanks.

It is an awesome weapon, so much so that the British Government didn't hesitate when the Americans offered the Ministry of Defence the chance to become involved in its production.

In fact the Ministry of Defence contributed a large slice of its £2,257 million budget to the project, so you can imagine the excitement at the first trial of the electromagnetic gun at the Royal Armament Research and Development Establishment in Sevenoaks, Kent.

The Railgun, which sends out projectiles at a speed of 5 miles a second, was loaded with a plastic replica and fired...

There was a fizz. There was a pop. Then the plastic projectile sprang out of the side of the weapon and hit a senior research scientist. After a stunned silence, everyone just fell around laughing. The multi-million gun that was meant to down nuclear missiles couldn't even topple a research scientist.

So now the Railgun joins other great American military inventions such as the anti-tank gun whose missiles turned 180 degrees and blew up its handlers and the amphibious tank that sank.

Of course it's not really funny, it's tragic. When we are going to learn that British is best. All Britain's armaments should be of British design and built in Britain.

## Burns AID Stopped

WHILE THE Government is to give £10 million to local authorities to combat the Queers' Disease AIDS, they are standing by and doing nothing to stop the closure of a hospital school that, since 1951 has helped more than

14,000 badly burnt children with their studies.

Gwent Education Authority say they cannot afford to keep the school, for long-term burns patients at St Lawrence Hospital, Chepstow, open.

## Invite to Hong Kong Nurses

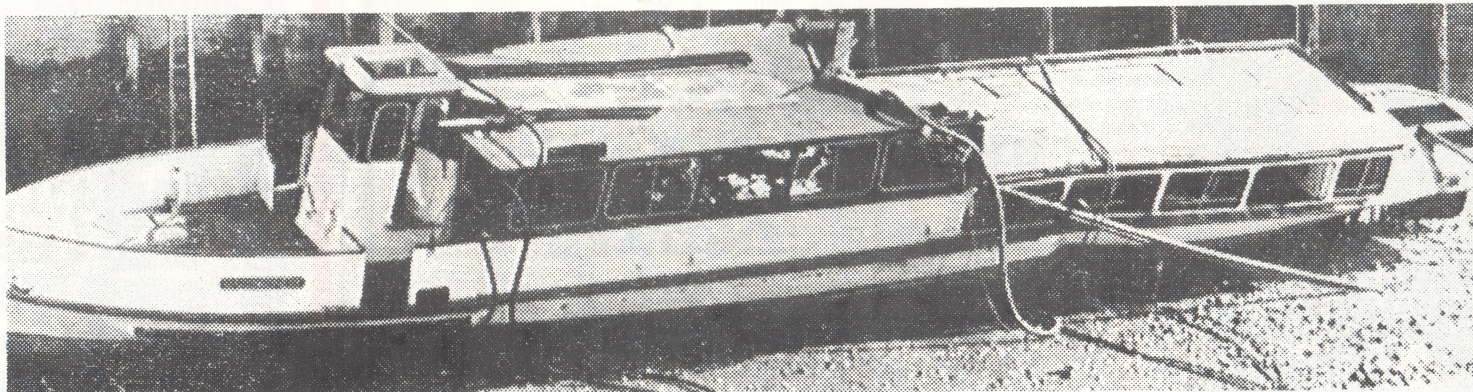

ENFIELD HEALTH Authority have recruited more than 100 nurses from Hong Kong to work in local hospitals. The Authority claims it's cheaper than employing British nurses from nursing agencies.

Health Authority General

Manager, Annette Sergeant said "With the political situation being what it is in Hong Kong, a large number of residents are taking the opportunity to move over here".

So much for our strict immigration laws!

## POLICE CORRECT TO ISSUE AIDS WARNING

SCOTLAND YARD have come under fire for issuing an AIDS warning to the Emergency Services after learning that those involved in the Thames river boat disaster were queers and lesbians.

Four hours after the sinking of The Marchioness when it became apparent the type of people the boat was carrying the Metropolitan Police acted to

protect those involved in the rescue operation.

The Police were right to give the warning. If someone from the Emergency Services had contacted AIDS after helping survivors it would have further ostracized the queer community already regarded with leper-status.

## ... and so the War Begins ...

MUSLIM WARS ARE taking place on Britain's shores and the first victims are four innocent British civilians.

Scotland Yard are hunting Muslims who bombed a book shop in central London injuring four passers-by. It was the fourth London bombing by Muslims against bookshops in protest at Salman Rushdie's *Satanic Verses*, but the first to cause injury.

The bomb was made from a length of pipe filled with explosives. It was thrown from a passing car into the doorway of Liberty's bookshop, where it exploded showering pedestrians with bolts.

Mrs Clare Dodd was seriously injured. She was rushed to University College Hospital where she was operated on. Later her condition was described as

stable.

Two branches of Collet's bookshop in central London have also been bombed as well as a bookshop in Chelsea.

In April of this year, the National Front launched their campaign "No Moslem Wars on Britain's Shores" with a march in Rochdale. Maybe now the British people can see the reason why!

## Final Warning Issued

MUSLIMS IN Britain are giving the British Government a final warning to ban Salman Rushdie's book *Satanic Verses* or face the consequences.

The Islamic Cultural Society has told the Government "If Muslim grievances are not redressed soon, the situation may get out of control".

The warning continued "The attitude of the British Government has not eased the tension and the distress felt by millions of British Muslims or defused a highly charged situation. It is our duty to warn you of the intensity of Muslim feeling"

## Scheme Funded

SHEFFIELD IS to get its own Black Ethnicity Centre to provide advice, workspace and training facilities for the City's ethnic minorities. The scheme is funded by the Government's Urban Programme, Sheffield City Council, local community groups, the London-based Business in the Community and the private sector.

A spokesman for the Centre said "It will help give young Black people a bright and secure future".

White youngsters will just have to progress without any extra help, no one is prepared to fund a scheme for them!

## Indian Teachers!

NEWHAM COUNCIL in East London has recruited more than a dozen teachers from India to teach the Borough's growing ethnic population.

The teachers start their first term this month after a short induction and qualifying period to meet British standards.

## South West Report

By Mark Cotterill

**PLYMOUTH.** On Saturday, Sept 2nd, the first NF activity for several years took place in Plymouth. A paper sale was held both inside and out! at Home Park, home of Plymouth Argyle, at which copies of *The FLAG* were sold to local supporters.

In the evening, an informal meeting was held to discuss reforming a Plymouth Branch of the National Front. This is now being done, with local members getting a PO Box, holding regular branch meetings and establishing a pitch outside the football ground for paper sales.

**CORNWALL.** In the last month or so the Cornish press have run several articles on the NF, due to the fact that support for our Party is beginning to mount again, in this far off outpost of the British Isles.

Activity is mainly being based in Camborne and Falmouth, where we hope to set up the first NF Branch in Cornwall, since 1979. A number of local NF members have joined the 'Celtic League', which is creating quite a fuss! This and the fact that 'Cornish Nationalist party' (CNP) has sold out and is now in favour of Regionalism, not, Nationalism, asking for Hong Kong Chinese to be welcomed in Cornwall, has brought us support from ex-CNP members.

**EXETER.** It seems that after selling over 50 copies of *The FLAG*, outside Exeter City football ground, on the opening day of the Football season, the Reds, the Press, the Police and the Football Club itself, have joined together to try (unsuccessfully) to halt the growth of Exeter NF. At the next home game a mob of left-wing degenerates, demonstrated outside the ground and handed out Marxist leaflets against the NF. However, most City supporters told them 'where to go' and the bulk of the leaflets ended up on the floor.

Labour Councillor, John Lloyd, a trendy Barrister, from a not-too working class background, has called on the Police to prosecute *The FLAG* and *Vanguard* sellers claiming it is 'racially inflammatory' and contravenes the 1986 Public Order Act, however the Police have declined to do so. Exeter's Supt. John Lilley said "what they are doing is not illegal, and the law quite clearly gives the NF an equal right to sell their newspaper."

What the Police might like to look into is some of the Pro-IRA papers read by members of Lloyd's Exeter Labour Party chums, these we are quite sure do contravene the law and it is a disgrace that they are on open sale in some bookshops in Devon.

# Front Strike a Blow For Britain

TED BUDDEN, 64, and 22 year-old Tina Wingfield were the unlikely combination that took on IRA boss Gerry Adams when he spoke at the Corn Exchange in Brighton during the Labour Party conference on October 2nd.

The Godfather of IRA terrorism screamed for his bodyguards when Tina and Ted stormed the top table during the meeting. Adams was visibly shocked after having a water jug emptied over him.

Tina and Ted struck a blow for Britain, and their actions must have sent up a cheer from nearly every home in Britain.

• Sussex NF members picket the IRA meeting prior to the attack on Adams.

## Water is thrown at IRA backer Adams

LEADER of the IRA's political wing Gerry Adams was drenched with water by protesters when he appeared in Brighton last night.

Members of the Sussex National Front staged a demo as he started to speak at a controversial fringe meeting at the Labour conference.

Two tried to storm the top tables and NF administrator Tina Wingfield threw a glass of water at Mr Adams.

Colleagues shouted "Scum!" and "Murderer!" before being led away by police.

TOP: Tina charges as Adams calls for help!

LEFT: An IRA hag and two IRA henchmen drag Tina from the stage.

ABOVE: The 'Daily Mirror' report. RIGHT: How 'The Sun' saw it.

Mother-of-two Mrs Wingfield, of the Sussex National Front, said: "I have no regrets. 'I'm disgusted that Gerry Adams can come here and defend the murder of the Marines. 'He should be on the gallows, not on a public platform to speak."

## MUM LUNGES AT ADAMS

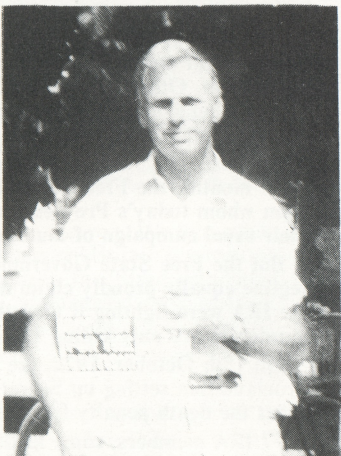

TOP IRA supporter Gerry Adams was attacked by angry protesters at a Labour Conference fringe meeting last night.

About a dozen people stormed the Brighton meeting hall and rushed towards him shouting: "IRA scum, murderer." The charge was led by housewife Tina Wingfield, 22, who grabbed the microphone as Adams rose to speak and threw a glass of water at him.

## Well Done Yarmouth

GREAT YARMOUTH won the Branch Efficiency Cup for 1989 and Branch Organiser Tom Holmes collected it at the Annual Conference.

Gt. Yarmouth proved that you don't have to be the biggest branch to be the most efficient, winning the cup on their leafletting, papersales and letters published in the press.

## Walsall NF To Take Council To Court

BOB NOAKES, Walsall NF organiser is taking Walsall Labour Council to court over their refusal to display *The FLAG* in Walsall Library.

An assortment of anti-British journals line the shelves of the library but the council refuse to allow the people of Walsall the right to see a patriotic newspaper.

Walsall NF's campaign has received backing from some Walsall Tory councillors who agree that the ban on the Front is undemocratic. The story has been on the front page of local papers for nearly a month now giving the Front excellent publicity.

Bob Noakes, a recent NF council election candidate in the town, says he will take the matter to the European Courts if necessary.

## Record Collection

THE SEPTEMBER meeting of the Croydon Branch of the National Front saw their biggest ever collection. £233.45 was collected and split between the branch and those members from Croydon fined during the anti-IRA demo in August.

## FRONT ADDRESS IN LUTON

LUTON NATIONAL Front now have their own contact address. Details of all Luton Branch activities can be obtained by writing to: The Secretary, P.O.Box 310, Houghton Regis, Dunstable, Beds LU5 5YF.

The Luton Committee of Claire Gale, Jodie Marks, Simon Cannon and James Gray would like to thank all those who responded to their appeal for funds and whose donations made the setting up of the P.O.Box possible.

## NF PAPERSALE IN BRISTOL

• Branch Branch Chairman, John Daniels, with local activists on a recent papersale in the city.

BRISTOL NATIONAL Front are going from strength to strength signing up 11 new members in one week during September.

Papersales and opposing IRA meetings have provided the activities during the month and plenty of news for the Bristol Branch magazine *New Britain*

## Latest Episode of the NF Soap Opera

THE SAGA of the National Front's attempts to sell NF papers outside Stamford Bridge, the home of Chelsea Football Club, without being arrested, drags on and on.

The story so far... the police refuse to discuss the matter with us and say if we turn up they will arrest us.

The latest developments... the Police Complaints Commission say they cannot help us as the decision is a policy one. They have forwarded the NF's complaint to the Metropolitan Police.

The Metropolitan Police have now written to us saying that the matter has been passed on to the Police Complaints section in Uxbridge, Middlesex... and so the story continues.

## Council Promotes Japs

SCHOOLCHILDREN IN Derbyshire will be taught Japanese as part of the county's drive to attract investment from the Far East.

What would those British soldiers who suffered at the hands of the Japanese in Burma during the last war think of this? A local authority promoting the teaching of Japanese to our children to encourage Japanese investment to come to Britain and destroy British industry.

I expect they would wonder what on earth they had risked their lives for

## We Pay For Black Dunces

A PROGRAMME costing British taxpayers £500,000 a year has been launched in the London Borough of Brent to help deal with the under-achievement by ethnic minority pupils in schools.

Douglas Hurd, the Home Secretary, has approved the programme to be funded under Section 11 of the Local Government Act.

## They Don't Understand

MORE THAN a quarter of Britain's immigrant population understand little or no English. Almost a third cannot speak the language.

One in four of those questioned for the Government-funded Adult Literacy and Basic Skills Unit said they had little or no ability to write English and 36% could not read English.

## Pets in Foreign Hands

HALF OF the 600 vets who registered in Britain last year were foreigners and the number is expected to increase.

Alastair Porter, registrar of the Royal College of Veterinary Surgeons said the BVA was concerned that some of these vets might not be suitable or have a good enough grasp of English.

Steve Brady takes a look at the RUC 'missing files row' and explains why the National Front would see to it that the RUC was 101% biased in favour of the British people. He also looks at how one country smashed the IRA less than 70 years ago.

**BRITISH POLICEMEN HAVE** been ordered by the Thatcher Government to protect the IRA terrorists they know murdered their friends, colleagues and members of the public.

Seventy-Six known Provo terrorists, identified from the Police's own files, now have a Police guard on their homes to protect them from ordinary Britons exasperated at the fact that the Police are forbidden by Mrs Thatcher to arrest these notorious murderers.

That is the sick farce to which the "Iron Lady's" Ulster security police has sunk. Instead of fighting the IRA, the Security Forces are now bidden to defend them.

The identities of the Provo "Godfathers" of murder and terror are well known to the Security Forces in Ulster. Although the Provo terror machine would swiftly slay any who testified against them in a Court, the Police know with total certainty who it is who shoots their comrades in the back and blows up women and children in the streets.

But, because IRA intimidation silences witnesses and prevents the legal niceties being observed, our policemen and soldiers are forced to stand helpless as notorious killers swagger past them every day on the streets, often openly gloating over their immunity to justice.

Indeed, the top leaders of the provo terror gang, the likes of Danny Morrison and Gerry Adams, not only enjoy immunity from arrest, let alone punishment, for their bloody deeds, they can even get themselves elected to the local council, and in Adams' case Parliament.

No wonder frustrated policemen and soldiers pass on the names of their tormentors to those patriots not hamstrung by Maggie's apron strings, brave men prepared to risk their lives to root out the IRA vermin unofficially when the official law does nothing.

What else can they do? Stand by and see mass murderers strut the streets, plotting, even as they saunter past helpless policemen, new atrocities?

In principle, it is true, neither they nor the unofficial agents of the peoples' vengeance to whom they pass their secret files should thus take the Law into their own hands.

But in practice, if they do not, in whose hands is the Law? The weak grasp of Thatcher's effete Tories, who dare not wield it? If the Law lies spurned in the gutter, trampled with impunity

by the gunman and the bomber, is it not the citizen's right, nay his duty, to pick it up, and thus grasp as best he can in the peoples' hand the right of the peoples' justice?

British people - men, women and children - are dying daily while the Government dickers about legal niceties with a Dublin regime which harbours the killers itself.

Yet what is the Government's response to the news of the desperation and illegality to which their weakness and inaction in the face of terror has driven ordinary decent British policemen and soldiers? - Shame, and a determination to act lawfully with the firmness that would make such deeds unnecessary?

No, far from it! Ulster's policemen are now ordered to protect the IRA murderers in their midst! Whilst Thatcher bleats "The RUC is committed to providing an impartial, even handed service", sensitive to "the concerns of the nationalist (i.e. pro-IRA) community".

The National Front alone of Britain's political parties demands action against the IRA. We alone understand what drove good and

• Yet another member of the RUC is buried. Is it any wonder they are disillusioned and bitter.

# HOW TO DEFEAT THE IRA!

- \* DOZENS OF top IRA terrorists rounded up and summarily executed.
- \* Four top IRA prisoners taken out without trial and shot at dawn after an Army Brigadier has been murdered by the IRA.
- \* Fifteen thousand known IRA supporters interned without trial, in jails where the Governors warn "any resistance to their guards will render them liable to be shot".
- \* The land put in the hands of Military Courts, meeting in secret empowered to order the immediate execution of any IRA supporter aiding or abetting IRA activities, or found in possession of any arms, ammunition or explosives.
- \* Captured IRA terrorists ruthlessly interrogated by soldiers and policemen with the aid of lump-hammers and iron bars before being shot or blown to bits.
- \* Hundreds of IRA prisoners sentenced to death, with sentences suspended until the IRA murder members of the Security Forces, whereupon they can be executed immediately in reprisal.
- \* Protest meetings against all this held in the heart of the capital dispersed by machine-gun fire from Army armoured cars.
- \* The biggest IRA terror campaign in history smashed utterly, and the scourge of Fenian terror lifted ever afterward from the land.

A dream of a future NF policy in Northern Ireland?

No. It all happened once before.

The Government which thus resolutely, and with utter ruthlessness, smashed the IRA on their own territory was none other than that of the Irish Republic, or Free State as it then was!

For in 1921, when a British Government sold out 300,000 Irish Loyalists and handed 26 British Counties in Southern Ireland over to the IRA, the murderers and thieves thus set up in power in Dublin fell out amongst themselves. Some wanted to take what they had got and run, keeping the Irish Free State London had given them. Others, the diehard IRA fanatics, wanted to invade and conquer Ulster, forcing a million people against their will into a Greater Irish Reich.

By June, 1922, this division erupted in outright civil war. After three months, the Free State had won. Nonetheless the fanatics, from whom today's Provos proudly claim descent, carried on their usual campaign of murder, assassination and bombings.

But the Free State Government, from whom today's Dublin regime equally proudly claim descent, was less soft-hearted when the IRA were fighting it then than it is today when the Republican murderers are only killing Britons outside their territory.

On 10th October, 1922, the Dublin Government issued a Proclamation setting up Secret Military Courts, empowered to exact the death penalty for virtually any act helping the IRA.

77 IRA members, some leaders, others deliberately chosen at random, were executed, 29 by being tied in small groups around captured IRA bombs or land-mines which were then detonated by Irish Army soldiers.

The Irish Government publicly ordered its Security Forces "If prisoners are taken they must not be released until they are incapable of further harm. If executions are necessary they must be carried out with no fear of the chimera of popular reaction" - none of the lily-livered squeamishness about "offending the sensibilities of the Republican community" which ties the hands of our lads in Ulster today!

In mid-November 1922, a protest meeting in O'Connell St, Dublin, addressed by Maud Gonne MacBride denouncing Government brutality and the internment of women got similarly short-shrift. It was broken up by Army machine-gun fire, with 14 protestors wounded and hundreds trampled in the ensuing stampede to get off the streets.

The Irish Government's "gloves off" policy against the IRA, however brutal, worked. On 24th May, 1923, after eight months of resolute Irish security forces action, and with most of its leaders dead most of its members behind bars, the IRA ordered a "Cease Fire". They surrendered, and from that day to this, though they hate the "Free Staters" no less, the IRA has scarcely lifted a finger in the South of Ireland. Whilst today, after twenty years of terror, with most of its leaders walking the streets openly and unarmed, some sitting in Ulster Council chambers by day and blowing them up by night and one a Westminster M.P., the IRA in Ulster is as murderously effective as ever.

This is history from which we should learn. A patriotic British Government could do worse than inform the Dublin delegation at the final meeting of the absurd Anglo-Irish Agreement that Britain had decided in future to follow the lead of the Irish Government in dealing with the IRA, and therefore would implement in Ulster Dublin's own October 1922 anti-IRA Emergency Regulations! They enabled even the Irish to smash the IRA - so they'll work even better for us!

• British soldiers are helpless as a colleague dies - how can they fight the IRA with their hands tied by politicians in Westminster and Dublin.

## Go Home!

MAGISTRATE ROGER Davies suggested that a Midlands Moslem Priest, who assaulted a police officer during an anti-Salman Rushdie demonstration in London during May should return to his wife and eight children in Pakistan.

Imam Mohammed Bhatti told the court that he had applied to bring his wife and children to live with him in Britain, but the magistrate said he should go back to Pakistan to look after them.

Bhatti was sentenced to 1 month's imprisonment suspended for two years and ordered to pay compensation to the police officer.

## NF VOTES TO LET BLACK OAPs STAY!

THE NATIONAL FRONT at its Annual Conference in Birmingham on Sunday 24th September voted to allow Black OAPs to stay in Britain.

The resolution proposed by NF Deputy Chairman, Martin Wingfield and seconded by NF Directorate member, Steve Brady was passed by just 5 votes after a recount.

220 delegates representing branches from all over Britain keenly debated the most controversial resolution ever put before a National Front

Conference.

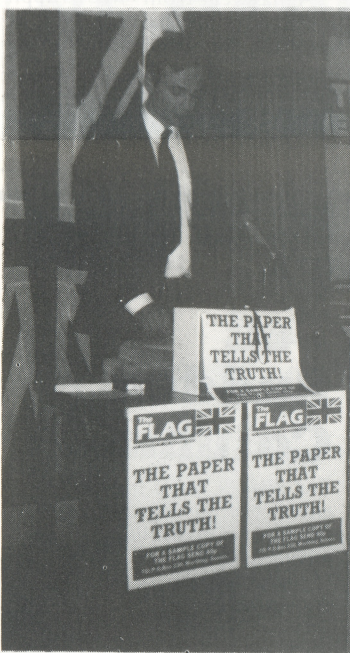

It was argued by those proposing the resolution that allowing Black OAPs to stay did

not change the NF's policy on Race and Nation which was to strive for an all White Britain. Phased, humane and financially-assisted repatriation, as laid down in the NF Statement of Policy, would take time, allowing Black OAPs, who wished to, to stay was a humane gesture that in no way changed the end product of the policy.

It was noticeable that the main opposition to the resolution came from the frontline branches. Bradford Organiser, Peter Relton, believed all immigrants should go as quickly as possible. Luton Treasurer, Claire Gale, queried the cost in terms of finance and housing space of letting the immigrants stay.

You could have heard a pin drop in the hall during the voting and when it was announced that the motion had been passed by 9 votes, Great Yarmouth Organiser, Tom Holmes, immediately demanded a recount. Again the votes were counted and this time the majority in favour was just five votes. Calls were made for the motion to be withdrawn because of the close voting but the proposer refused saying he believed that Conference had taken a major step in making the

## The Dream is Becoming a Nightmare

OVER THE LAST few weeks race riots have been surging across America. The worst outbreaks have been in New York where racial tension has been heightening throughout the summer since the gang-rape of a middle-class white female banker by a black gang.

The tension has now bubbled over into outright violence. At the end of August, Yusef Hawkins, a black man from Brooklyn, was murdered in Bensonhurst, an Italian district of New York. His murderers believed he was visiting a white Italian girl in the neighbourhood.

### TAUNTED

On Thursday 31st August thousands of blacks attempted to march from Brooklyn to Bensonhurst. The marchers chanted "Freedom is Death" and "War, War, War", they taunted white passers-by and hurled abuse at black policemen, screaming "traitor" at them. Twenty-three policemen were injured as the march was met by hundreds of whites who were waving water melons, which are used as a symbol of denigration, similar to the bananas used at football matches in this country. The whites set up chants of "Go Home Nigger".

Black leaders have been pouring into New York, Jesse Jackson has accused Mayor Ed Koch of being a new George Wallace, Louis Farrakhan of the Nation of Islam is there urging "the black community to unite against white violence", Al Sharpton who was heavily involved in the hoax of a black girl who claimed she had been abducted and raped by a gang has gone one step further and announced "the white system murdered Yusef Hawkins" and "they're going to pay this time".

In the vicinity of Virginia Beach the National Guard was called out on the 4th of September and a curfew imposed after widespread rioting by 100,000 black college students - about 100 shops were looted and 500 students arrested, several incidents with firearms took place.

Here in Britain we are always being told that America is an excellent example of a harmonious multiracial society. The reality is that the American dream is rapidly turning into a nightmare. Violence has become a way of life and drugs are threatening to tear apart the already creaking society.

### DETERIORATION

The most extreme example of this deterioration was highlighted on 30th August when Susan Barbier aged 29 was sentenced to life imprisonment for allowing her 13 year-old daughter to be raped in return for supplies of 'crack'. She had taken her daughter to the flat of a drug dealer and left her there for several hours in the full knowledge that her daughter was going to be raped.

It is often said that what happens in America today will take place in Britain tomorrow. Drugs, violence and racial warfare are all evils that can and must be avoided. We need action now before it is too late.

America has tried the liberal approach, they have thrown money at the problem but it has still grown. For Britain there is only one solution - that solution is the National Front.

## America Fabricates War Film

AFTER AN investigation by the *New York Post* allegations have been made that film footage of the Afghan war which won the Du Pont Silver Baton award for documentary was faked.

At least on four occasions dramatic battle scenes were fabricated.

Well, Well, - of course we know that it's not the first time American's have fabricated alleged documentary evidence. They had plenty of practice 44 years ago.

THE LION'S share of shares of the 10 water service groups not bid for in Britain will be offered to Japan. As much as 10% could be taken up.

Still the Japs know all about water don't they. They kept it from our soldiers in their prison camps during the last war and only used it for their famous water torture!

## NF Holiday

THE NATIONAL Front Social Club's holiday to Ibiza took place during the first week in September and coincided with the islands highest rainfall in 20 years.

Thunder storms and upset stomachs were the order of the day as NF members from London, Birmingham, Sussex, Kent and Buckinghamshire endured a grim stay in the town of San Antonio.

Next year the club will be looking at holidays in Britain!

A WEST Bromwich businessman has pledged £1,000 to Walsall National Front providing they contest the West Bromwich and the Walsall North seats at the next General Election.

## Barrett with All Guns Blazing

LIVENING UP the branch meetings this month has been American visitor Richard Barrett from the Nationalist Movement of the United States.

A lawyer from Mississippi, Richard's bible-bashing type of speaking has been drawing big audiences since he received a standing ovation from the NF's Annual Conference for his 'Sons of Britannia' speech.

During his 10-day visit he has spoken at branch meetings in Birmingham, Coventry, Walsall, Leeds and Exeter.

Alan Harvey, editor of *The South African Patriot*, was the guest speaker at the September meeting of the Brighton Branch of the National Front. Alan gave a very detailed run-down on the state of affairs in South Africa today.

## Absolutely Rotten

IN LAST month's T.B. Column I made a mistake - well, there's a first time for everything; even for me.

I stated that the Chairman of Lonrho was Lord Carrington. Not true!

I apologise to Lord Carrington for suggesting that he was in any way connected with the mysterious business operations of Lonrho. It's an absolutely rotten thing to say about any straightforward upright person. It's a rotten thing to say about Lord Carrington too.

Of course all these old Tories (and a few Labourites) have more juicy non-executive directorships than you can shake a stick at - all nice little earners or, to be more precise, nice little getters. It's sometimes quite difficult to remember which lucky group of shareholders has the pleasure of providing a retirement bonus to which politician.

In fact, it is former Tory minister Mr Edward Du Cann who numbers the Chairmanship of Lonrho among his numerous non-executive directorships.

I apologise to Mr Du Cann for suggesting that he is Lord Carrington. It's an absolutely rotten thing to say about anyone and I feel absolutely rotten about it.

## VE HAF VAYS

I MUST confess to having been initially surprised by the revelation that when the BBC and ITV advertise for staff, 70% of the adverts are carried by *The Guardian*. You see I'd always supposed that 70% of such adverts

appeared in *Pravda* with the other 30% being divided between the *Brixton Herald* and various Sinn Fein publications.

On reflection, though, I suppose that readers of *Pravda*, while being sufficiently anti-British to suit even the BBC, would be too tainted with racial nationalism ever to be acceptable to the trendy creeps and perverts who control the media.

Yes, I suppose *The Guardian* is just the sort of publication whose readership would supply the sort of recruits that the BBC in particular considers essential to the maintenance of its standards - the seedy "liberal" types who are "citizens of the world alone; the friends of every country but their own".

For there is none so impervious to reason as the "liberal" bigot, none so fearful of having his cherished illusions challenged; none so imbued with mindless hatred of true dissent as the professional "liberal non-conformist".

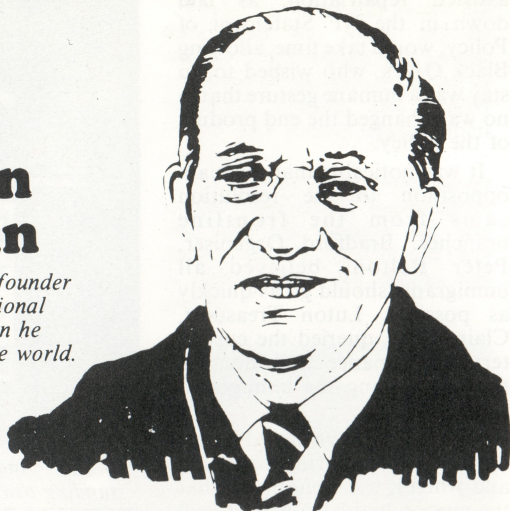

This atmosphere of "liberal" totalitarianism has pervaded the BBC for as long as I can remember. Some twenty years ago, a friend of mine wrote to Dr Charles Hill, then Chairman of the BBC, to complain of the BBC's slanted coverage of the immigration issue. Dr Hill, who died recently and is, I hope, roasting in Hell, may have been a leading Tory but was a true "liberal" at heart. In the very best "liberal" tradition he replied: "While I am Chairman I will ensure that no racialist is ever allowed to air his views on the BBC".

Today nothing has changed.

The BBC news programme 'P.M.' has a spot devoted to listener's

letters. The other day they received a spate of letters hostile to the demand by Asians in Birmingham that a British teacher should be dismissed because she could not speak Urdu. The presenter, Hugh Sykes, announced snifflily, "We have had the usual crop of racist letters that have gone straight into the bin".

Ah yes. The sound of the "liberal" is heard in our land.

Listen, you dissenters, don't waste your time expressing views that are unacceptable to the BBC.

One can almost hear the tramp, tramp, tramp, of "liberal" kinky boots and the snarled threat: "Ve haf vays of making you think like a *Guardian* reader."

## With Friends Like That

SOUTH AFRICAN National Party leader, Frederik De Klerk visited Zambia recently to hold talks with Zambia's Black President Kenneth Kaunda who later declared that he "had no disagreement with Mr De Klerk's proposals for constitutional reform in

South Africa". One might have thought that this seal of approval from the life-President of a bankrupt one-party state would have doomed the NATs to defeat in S.Africa's General Election. It did not. They won, albeit narrowly.

Mr De Klerk's success was cautiously welcomed in both the United States and Britain. Both were quick to point out that, since the pro-Apartheid Conservative Party had won only 30% of the White vote, 70% of the Whites must have been in favour of abolishing Apartheid forthwith. By the same token, the massive Tory majority at Westminster is proof positive that the great majority in Britain favour the Poll Tax, Water Privatisation, and the conversion of the CEBG into a high-priced private monopoly. Well of course.

But naturally the British and American governments have menacingly insisted that the S.Africans are only on probation and that unless they mind their wicked ways and dismantle their social structure they will forfeit the support and friendship of

both.

I must say that S.African politicians in general do not impress me since they seem to be a pretty mediocre lot of about the calibre of parish councillors in Britain.

They have permitted outrageously impertinent intrusions into their internal affairs by Western governments seeking to curry favour with Blacks. They have allowed the Western media to mount a campaign of subversion against S.Africa by well-orchestrated misinformation and misrepresentation, all, it seems, in a pathetic and fruitless attempt to convince the world that theirs is an open and democratic society. It is a high price to pay for frail friendship and support of Britain and the USA.

For the Tories, of course, intend to demonstrate their friendship and support by doing for the S.Africans what they did for the Rhodesians - in short, doing for them; an outcome that led Rhodesian ex-Premier, Ian Smith, to describe them as "twisters" and "a shady lot". The Americans, on the other hand, merely want S.Africa to be a bit more like the USA - the bit that is Black-run, crime-ridden Washington; the capital city of the USA and the murder capital of North America.

In fact the White leaders of the West regard the S.Africans as an anachronism and an embarrassment. They would be quite content to see the Whites overthrown by Blacks who could be bribed to allow big business to operate in the same old way.

So in grovelling to his "friends" in Britain and the USA, De Klerk puts the very existence of the White race in S.Africa in jeopardy for with friends like that...

## Weasel Words

THE RECENT spate of bomb attacks by Moslem terrorists on bookshops selling Salmon Rushdie's moneyspinner *Satanic Verses* has brought predictable responses from the victims. Some have discontinued selling the book, while other, bolder spirits have thundered their defiance by bleating that the attacks "are a form of censorship". By God, that's telling 'em.

Well yes, I suppose it is a form of censorship. There is after all no more effective way of censoring freedom of speech than killing the speaker.

Yet no one so far, to my knowledge, has actually condemned this "form of censorship" for what it really is; an instance of mind-boggling effrontery by an alien minority attempting to impose its will on the indigenous British.

Just why did the British - once a nation of fiery and outspoken dissenters - lose the will to say what they actually think? Did they become so mealy-mouthed because of the relentless campaign of coercion by the Race Relations terrorists? Is it because of the long years of systematic brainwashing?

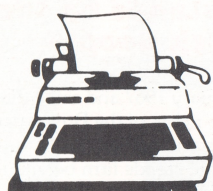

So now the British resort to weasel words for fear of being out of step with those who call the tune.

Still, with that infinite capacity for self-deception for which the British are justly famed, they will no doubt continue to harbour the cosy delusion that they are living in a free country.

As of course they do - it's just that they have to be careful what they say.

## LETTERS

### Many Thanks

I WOULD like to thank all members of the Directorate for putting on an excellent AGM. It was well worth the journey from Yorkshire.

In particular I would like to say a warm thank you to the lovely lady from Birmingham who helped my friend and I with travel costs. It was very much appreciated.

Kester Aspden,  
York,  
N. Yorkshire

### Repugnant

ALTHOUGH IT made distressing reading, your recent article 'A Nation's Shame' was very timely. More than ten years ago I wrote to Birmingham City Council to protest against their policy of allowing ritual slaughter in the city's abattoir.

At the same time I wrote to the RSPCA and my local MP. In each case the reply was entirely sympathetic to my protest but concluded with the usual expression of regret that nothing could be done to stop it.

For many years people who care about the sufferings of innocent

animals have campaigned to get a law passed to make the use of humane killers compulsory. It is certain that the vast majority of British people applauded this and the question must surely arise as to why the barbarism depicted in your article is allowed to continue?

No doubt the National Front would assert that it is because the Government is afraid to offend racial minorities. Is it then more important, that to avoid offending ethnic minorities, we have to perpetrate something which is deeply offensive and repugnant to the ethnic majority.

A. Altoft,  
Birmingham.

• Repugnant: Jewish slaughtermen busy ritually killing.

### Con Merchants

I SINCERELY hope voters, especially Nationalist voters, will not be conned again by the likes of Tory MP for Bridlington, Humberside, John Townsend.

He has obviously been groomed by the Tories to replace the likes of Enoch Powell and Harvey Proctor as the Party's 'safety valve' to keep the Monday Clubbers happy.

Only the National Front makes statements like 'Our Lost England', means it, and tries to do something about it. The Tories are con merchants - they have done more to destroy the racial make-up of Britain than any other party. We must treat Tories like Townsend with the contempt they deserve for belonging to a party that is destroying our country.

W. Young,  
London SE11.

### Alien Pubs

I WONDER if many readers have experienced being refused entrance into a pub for wearing a National Front badge.

On a recent visit to the Rosemary Branch, in North London (entrance advertised free in local papers, but £3.00 charged on the door), I was confronted by an officious Asian who declared himself the manager and refused me entrance.

What a state of affairs, an Englishman being refused entrance to an English pub in our capital city by an Asian. The irony is that in the next few decades many of our inner city pubs will be forced to close on the orders of local Muslim leaders.

Peter Hart,  
London E15.

• The marches of the massed bands display a moving sense of British tradition

## Music Review with Bob Nash: When Pride Inspires British Music

AS NATIONALISTS many of us find great joy and a sense of pride in singing along to songs and Hymns which have a particular patriotic feeling to them.

Songs such as Rule Britannia and Land of Hope and Glory, which were both sung at this year's NF Annual Conference, are typical examples of striking British Hymns.

Some of the most moving and effective music of this sort is played by the traditional orchestras and Brass Bands. On occasions such as the Trooping of the Colour, the Edinburgh Tattoo and the Remembrance Day Parades, the marches of the massed bands, display through their particular form of instrumental music, a moving sense of the tradition of the British people and their armed forces.

Such music reminds us of the glorious history that Britain as a Nation has achieved.

Similarly, the familiar and welcome refrain of Elgar's Pomp and Circumstance marches, or a slightly humorous version of the Sailor's Hornpipe theme, at the last night of the Proms, complete with a flurry of Union Jacks remind us with pride of the greatness of the British character down the ages, which has in turn inspired such a wealth of traditional music.

It is this great character, this tradition that inspires us to work towards the future, to build the NF. As a movement which in times to come will create a new Britain, a Nation and people united, who through their own

efforts will once more be great again.

It is this indomitable spirit that lies at the heart of Traditional British music.

### ITEMS OF INTEREST

A selection of recent items of interest in the world of music and the media.

\* The recently released film 'The Metal Years', whilst not being a patch on the BBC's Arena Heavy Metal special of a few months ago, still has its moments. In particular San Francisco-based band 'London' and their strong anti-Communist remarks.

\* No wonder the audience at the new-look Red group dominated Reading festival were so quiet, they were probably all doped-up to the eyeballs! Over a hundred arrests were made by police on the day for various drug offences. This didn't stop the Commie staff of the Mean Fiddler who organised the event from celebrating the festival's success. But then they were all properly high as well.

\* It seems that the music industry bosses behind the exorbitant prices for C.D. discs, £10 and £12 per disc, are reluctant to lower C.D. prices because they think records and cassette tapes will themselves soon rise in price, to match that of compact discs. Whether the music industry moguls get away with this remains to be seen.

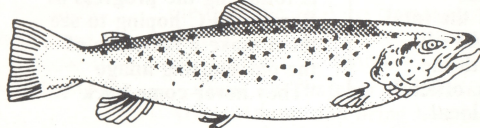

\* And finally, watch out for the Def Leppard documentary 'Rock of Ages' which should be winging its way to your screens on BBC TV within the next month.

### THOUGHT FOR THE MONTH

"Two things fill the mind with ever new and increasing wonder - the starry heavens above me and the moral law within me. I need not search for them, and vaguely guess concerning them . . . I see them before me and link them immediately with the consciousness of my existence".

KANT - philosopher 1724-1804.

## GONE FISHING

WITH  
JOHN  
HILL

THE WELSH Dragon beat Italy and England to become the World Match Fishing champions. This was somewhat of a surprise to everyone except the quietly confident Welsh team.

Third on the first day, Wales produced a brilliant display of fishing to overtake Italy for Gold. Team manager, John Mayers, after listening to the Welsh National Anthem at an emotional ceremony said "If I die now, I die a happy man".

England, the favourites for the event on the Plovdiv Canal, near Sofia, in Bulgaria, were disappointed with their third place although one big consolation was the individual performance of Tommy Pickering who produced a faultless display of fishing to become the new individual champion of the world.

Dick Clegg, the England boss,

said his team were upset over missing out on a hat-trick of wins which had never been done before.

A great weekend nevertheless for the battling Brits with Scotland gaining a respectable 5th place.

### Made in Taiwan

AFTER READING giant tackle-makers, Shakespeare's, new glossy brochure I was prompted into buying a rod from them after a sales line boasting about their roots in the so-called capital of rod manufacturing, Redditch in Worcestershire.

Once in the shop I was horrified to see the rod I had chosen carried a Made in Taiwan sticker. Come on Shakespeare, what's wrong with a rod made from British materials, by British workers, in British factories?

## A LAMENT

Land of Hope and Glory,  
Mother of the Free,  
What on earth has happened,  
To the way things used to be?  
John Bull, our former champion  
Is now raddled with disease  
The British Lion likewise,  
Has fallen to his knees.  
Britannia's brave subjects  
Are often abject, ovine clones,  
And many of her cities  
Now resemble combat zones  
Is the reason for the passing  
Of a way of life so prized  
To do with the assumption  
That we're so damned civilized.  
To support this trendy notion,  
We abolish cane and rope,  
A few years inside for murder,  
Will deter, or so we hope!

And because all men are equal,  
We endeavour to do right,  
By all our coloured brothers,  
In fact we're sorry we are white.  
From the noble English language  
We have abolished the odd word,  
Such as Patriot and Duty -  
Well they were so absurd!  
We are very understanding  
To those who rape and rob,  
Or destroy the innocence of children,  
Or will not take a job.  
We say that we have failed you",  
And in turn we are despised,  
That's the price we pay my friend,  
For being so damned civilized!  
J.A. Sanderson, Oman, 1988.

## QUIZ?

QUESTION: In which city are motor-cyclists arrested for wearing crash helmets?

ANSWER: Columbia's drug capital Medellin. There so many people have been assassinated by motor-cyclists wearing visored helmets to avoid identification that the Police have been forced to arrest helmeted motor-cyclists on sight!

## Yorkshire RIGHT The Rest WRONG

FOR AS long as anyone can remember Yorkshire County Cricket Club have had a policy of only fielding players who were born in Yorkshire. In both 1981 and 1985 there were referenda of club members on this question. The current policy was supported 9:1 in 1981 and 5:1 in 1985.

The policy gives the county's youngsters a real opportunity to develop their cricketing skills and is best in the long-run for both Yorkshire and English cricket. But in the short-term the policy has its drawbacks.

● West Indian, Malcolm Marshall, keeping a British bowler out of a county side.

Yorkshire, because they encourage and give chances to their youngsters, find themselves struggling against counties who have ignored their youngsters and brought in foreign test players to boost their team. Now some Yorkshire players and supporters feel frustrated because of Yorkshire's lack of success.

Such frustration is not surprising - but its not Yorkshire that should change. No foreign players should be allowed to play for English counties. That's the policy that would return English cricket back to its rightful position - the best in the world!

### Swedes correct Mini-squirt's Outburst

## MOYNIHAN'S OWN GOAL

HOW HE MUST hate all that is British. Mini-squirt of Sport, Colin Moynihan, couldn't wait to condemn the British football fans in Sweden when the first reports came through of trouble after the World Cup qualifier in Stockholm.

First he wanted England to withdraw from the World Cup, then he wanted to cancel the World Cup game against Poland. He made these demands without knowing any of the facts, and without any reports as to what had happened from the Swedish authorities.

It was the typical reaction from a man renowned for his hatred of anything British including himself, and one who was duped by Asian call-girl Pamela Bordes.

The facts of Stockholm ridicule Moynihan's rantings.

1) Swedish Police Report: "After the match English fans were protected by police from Swedish fans who were waiting for them outside".

"The only trouble inside the stadium came from Swedish fans".

fans".

2) FIFA Match Report: "One hour before kick-off the police allowed 400 England fans with tickets into the stadium. They caused no trouble before, during or after the match".

So there we have it, England's fans were not to blame and Moynihan had got it totally wrong. Has there ever been a better reason to give this anti-British creep the sack.

● The World Cup: If Moynihan had his way England wouldn't be competing.

### Make the Thugs Serve Their Country

THE NATIONAL Front is not trying to whitewash football hooliganism. We are just getting the problem into perspective.

★ There are mindless thugs attached to a small number of clubs whose sole purpose of going to games is to get involved in violence. These people make up a tiny

percentage of football supporters probably less than 1%.

★ The Government is penalising the vast majority of football supporters through its ID Card scheme, yet that scheme will have little effect on the football thugs who couldn't care less whether

they go to the game or not.

★ The way to deal with mindless thugs is to take them out of circulation, not to languish in prison doing as they like, but to serve their country in the Services learning discipline and respect for other people and property.

### GOOCH FACES BOYCOTT!

TRADE UNIONS in the Caribbean are urging their members to boycott England's winter tour of the West Indies.

The Unions have joined with anti-apartheid groups to condemn the selection of Gooch as captain of the team and the selection of five other cricketers who have played in South Africa.

series with Mike Gatting's England team in South Africa.

ON JUNE 2nd 1972 at the Cafe de Paris in London, Barrow Football Club lost their league status. A club that was founded in 1901 had been dispatched to the football wilderness after being out-voted on the second ballot by Hereford United.

After 17 years of existing in non-league football Barrow AFC now have a

chance to return to the Fourth Division if they win the GM Vauxhall Conference League this season.

The long haul back to the perimeter of the football arena has been made possible because of the total commitment given by all those concerned with the club. From players, officials and supporters, to local

businessmen, all those who take pride in the club and the town are working together for the club's return to the football league.

This season 'The FLAG' is following the progress of Barrow AFC hoping to see them make a nonsense of the old sporting adage "They never come back".

## WORKING TOGETHER

BARROW-IN-FURNESS  
ASSOCIATION  
FOOTBALL CLUB Ltd.

Holker Street Ground  
Barrow-in-Furness

WHEN THE manager of a Football League Club is also a director and when the club programme is jam-packed the adverts from local businesses you know you have an outfit that is pulling together.

There appears to be no 'them and us' with the Holker Street set-up of Barrow-in-Furness Association Football Club. Manager Ray Wilkie is on the board and able to hear criticism of himself first hand and to argue his case rather than just being called in to collect his cards one morning.

Any ideas of the Conference Championship this season are dismissed by the club. 1989-90 season is a holding operation. The players at the club are part-

time and depend on jobs from local industry and commerce to supplement their wages. This poses problems and has limited Barrow's squad to the bare necessities. Writing in the club programme one supporter believes that if the club avoids relegation this season it will be a great success.

And the road is proving hard. At the time of going to press Barrow have won two home games and gained two draws away from home. Injuries and suspensions are making team selection difficult. Every point is going to have to be fought for and be seen as a point gained rather than two lost. The battle to hold onto the gains of last season is on.

## THE NATIONAL FRONT

A political party that stands up for  
Britain and the British people.

The National Front was formed on 7th February 1967 and since that day has campaigned continuously to defend the rights of the British people. Despite many ups and downs in its fortunes and non-stop attacks from our opponents, the National Front today still stands firm behind those beliefs, contesting, Euro-Elections, Parliamentary Elections and Council Elections whenever it can.

### DEMOCRACY & INDIVIDUAL FREEDOM

The National Front is committed to the preservation and enhancement of Parliamentary democracy. We are committed to the defence of traditional British rights of freedom of speech and opinion for our opponents as well as ourselves. The National Front would enshrine rights of free speech and free expression of opinion in a Bill of Rights.

### RACE, NATIONALITY & CITIZENSHIP

The National Front believes in a positive creed of love of Nation and Race, not of negative hatred of coloured immigrants as individuals. We are committed to the ending of all non-White immigration and to the phased, humane and financially-assisted repatriation of all non-Whites resident on our national territory.

### NATIONAL SOVEREIGNTY

The National Front is committed to Britain becoming a fully sovereign nation as far as possible independent externally of other nations and internally of sectional interests.

### NORTHERN IRELAND

Northern Ireland is, and must always remain an integral part of the British Nation. Those people currently resident in Northern Ireland who refuse to renounce allegiance to an independent Irish state and therefore do not consider themselves British will lose their British Citizenship and, as a result, their automatic right to live on British soil, vote in British elections and enjoy British social services. This would enable all IRA activists and supporters to be removed permanently from the UK.

### DEFENCE

The National Front is resolved that Britain must possess an independent nuclear deterrent, one entirely produced, maintained and controlled from within Britain. Our conventional armed forces must be expanded and modernised. All foreign bases would be removed from British soil.

### OWNERSHIP OF INDUSTRY

The National Front believes in the widespread private ownership of industry commerce and agriculture. We envisage an economy comprised of small and medium-sized businesses and farms owned by individuals and partnerships; enterprises that are necessarily large which are owned and controlled by employee shareholders, and producers' co-operatives in which the profits would be distributed among the employees. Nationalised industries would exist in those areas of the economy in which the necessary monopoly position, level of fixed costs or importance to national security or the economy, made public ownership necessary or desirable.

### CRIME & POLICING

We recognise that crime can only be contained by providing adequate deterrents, rather than searching for alleged 'social causes'. Therefore we would restore capital punishment for the categories of murder, treason, large-scale drug trafficking and involvement in terrorist offences.

### HEALTH & WELFARE

The National Front recognises that the State has an obligation to ensure that those of its nationals who cannot be expected to support themselves should enjoy a standard of living that is adequate to cover their reasonable material and social needs. We believe that the National Health Service must be maintained at whatever level is necessary to ensure the health and well-being of the Nation.

### EDUCATION

The National Front believes that there must be a national common core curriculum in primary education to ensure that the minimum standards of literacy and numeracy are achieved by all children. Secondary education must place a strong emphasis on technology and craftsmanship.

### THE ENVIRONMENT

The defence of the environment is central to the National Front's programme for National and Racial survival. We seek an economy and a way of life which will respect and sustain the environment rather than disregarding and exploiting it.

**If you agree with National Front thinking on these issues of the day then join our Party and take your place alongside other Britons who have joined our crusade to win back our country!**

## PEOPLE BEFORE PROFIT

DESPITE BEING under pressure from the media, the sponsors, and some owners and trainers, Doncaster stewards cancelled the St Leger meeting during September after four horses had fallen.

Although the decision meant a massive loss of revenue for the course it was the right decision as exploration revealed a collapsed drain on the sprint course which had caused the falls.

It's right the stewards put the welfare of horses and jockeys before the course's profit.

### Let It Ride!

LET'S STICK with John Baker's horses for another month. In September's issue of *The FLAG* we told you to follow all his runners. He only had three. **Midnight Strike** - Won 6/5, **Frank the Hiker** - Won 12/1 and **Valtiki** - Unplaced 14/1.

So we are showing a nice profit on the month so let's let it ride.
